Build your custom specification.

Use the product code to select a starting point for your custom collection.

01

Choose the design

Record the product codes, garments and accessories you need.

02

Set the artwork

Select colors and describe any changes to the all-over sublimation graphic.

03

Confirm fit and sizes

Specify the target wearer, fit, size range and quantity breakdown.

04

Add your identity

Replace the example team and sponsor text. Supply badges, names and numbers; choose black or white F11.

05

Review the sample

Confirm fabric, construction, measurements, color matching and printed artwork through sampling.

06

Finalize the specification

Record the approved artwork, materials, sizing, trims and packaging before production.
